

Power Plant

We at **Kinetic** have been serving the **Power Plant Industry** with high value-added engineering solutions for the past decade. We provide complete range of process control products which include the below mentioned applications:

- Steam turbine and heat recovery system components, condensate pumps, blowdown valves, gate
- Automatic modulation adjust of parameters such as water level of boiler steam temperatures, pneu
- Waste and exhaust treatment, dust collection valves, high flow solenoid valves.

Featured Products

[Solenoid Valve](#)

[Actuators](#)

[Dust Filter Valve](#)

[Ball Valve](#)

[Pressure Switch](#)

[Flange Valve](#)

[Pneumatic Cylinder](#)

Fittings

Stainless Steel FRL
